ADVANCED AQUA-HOT HYDRONIC HEATING SYSTEMS  
NOW OFFERED ON FLEETWOOD RV MOTOR HOMES

After extensive testing, Fleetwood RV will offer innovative Aqua-Hot Hydronic Heating Systems on its American Coach and Revolution LE models. Aqua-Hot sales and marketing manager Harold Ogden made the announcement.

"This relationship gives us the chance to partner with a premier RV manufacturer," said Ogden. "By working with an industry-leading company that produces superior motor homes, such as the luxury American Coach line, we can continue making the road a more comfortable place."

Adding value to RVs for over 20 years, state-of-the-art Aqua-Hot Hydronic Heating provides unlimited hot water and quiet, evenly-distributed interior heat. Aqua-Hot 600-D, 450-D and 375-D systems will be available on the 2010 American Heritage, American Eagle, American Tradition, American Allegiance and Revolution LE brand motor homes.

"Aqua-Hot's quality and brand name recognition with our owners is a tremendous asset and complements our product offering," said John Draheim, president and COO of Fleetwood RV.
