BECKSON HATCHES ADD QUALITY, STYLE TO ANY BOAT

Whether adding functionality, for access or replacing an outdated hatch, Beckson Marine's proven HT Series Hatches deliver a quality solution. With timeless good looks and a wide range of sizes, these durable, low-profile closures are a smart addition to any boat.

HT Series Hatches are a creative combination of sleek appearance, thoughtful design and rugged construction. They're a mere 1/2" H—even with their hidden mounting hardware and hinges, and flush, easy-open latches. On a foredeck, they're barely noticeable underfoot, and won't stub toes or snag lines. Clean, radiused corners and euro-style non-skid on the reinforced covers complement contemporary to classic vessel styles.

Unlike many hatches, Beckson HT Series models open 180° and can be operated with one hand. Vertical or horizontal mounting flexibility enables a variety of uses.

They're manufactured from marine-grade, UV-stabilized polypropylene for a long service life. Channel-set gaskets ensure a weather-tight seal.

Beckson HT Series Hatches are bright, nautical white, with some models available in ivory or black. They're offered in five standard dimensions, 11" x 15", 15" x 15", 10 x 24", 14 x 24" and 18" x 21".

Installation instructions and detailed specifications are online at www.beckson.com/hatches.html. Suggested retail prices start at \$94.50.
