BOATSETTER OWNERS EARN UP TO \$350 FOR EVERY REFERRAL

Boat owners who share their vessels through Boatsetter, the leading peer-to-peer rental marketplace, know firsthand the financial benefits of turning over the keys. And now with the new Owner Referral Program, they can make up to \$350 by referring a friend.

Boatsetter made the process simple. Current registered owners share a personalized web link with friends via social media or text message. They can also import their contacts into a convenient online email form and use the pre-written message.

For each new boat listing that goes live, referring owners will make \$100 after the initial completed rental of \$200 or more. Then, they'll receive an extra 5% in Boatsetter Boating Credits for the first five rentals.

Not every friend owns a boat. Owners whose referral results in a requested and confirmed booking—whether it's their boat or someone else's—will receive \$100. With over 600 Boatsetter locations, this is ideal for out-of-town acquaintances.

It's easy to track the status of the referrals using the online or Boatsetter app dashboard. Altogether, owners can add an extra \$350 to their average yearly rental income of \$4,600. More information is at www.boatsetter.com/refer-an-owner.
