## DOCK BOX DOUBLES AS STYLISH FURNITURE

Whether it's a public marina or private pier, there's rarely a spot to sit, relax and enjoy the view. Better Way Products' Waterside Lounger is a stylish, comfortable love seat that fits into any surrounding and provides over 14 cu. ft. of storage.

The Waterside Lounger is made with the same rugged, heavy-duty fiberglass construction and highly finished, UV-resistant exterior that Better Way Products is known for. It features the company's EZ Drain system, gas lifts and stainless steel stays for easy opening, oversized hinges and a lockable latch for security.

Ideal for use around boats, pools, decks or anywhere durable storage and seating is needed, the Waterside Lounger is externally 66" L x 24" D x 38" H. Inside, it's 62" L x 20" D x 20" H. It's available in white, grey and tan. It costs \$898 ASRP.

Better Way Products is one of the largest manufacturers of dock boxes in the USA. It also makes large custom fiberglass parts for pontoon boat and RV builders.
