BETTER WAY PRODUCTS DOCK BOX OFFERS MASSIVE STORAGE

Dock and deck boxes offer convenient storage, but never seem to be large enough. Better Way Products' Model 625 Xlarge Dock Box offers a massive amount of interior space—over 13 cu. ft.—and enough length to hold rod cases and even long, extendable boat hooks.

Like all Better Way Products dock boxes, the Model 625 Xlarge is manufactured in the USA from high-quality fiberglass averaging 3/16" thick, with a glass-smooth, UV-resistant gelcoat exterior. Sandwich core construction provides unsurpassed strength in the bench-like lid. Only corrosion-resistant steel is used in the lockable latches, piano hinges and cable stays which are secured with oversized, rustproof rivets. Superior quality gas lifts are standard.

The Model 625 Xlarge measures 71" L x 22" D 24.25" H and weighs 75 lbs. Available in white, grey or tan, it costs \$799.

Better Way Products is one of the oldest and largest fiberglass manufacturers in the US. It makes over 30 different dock and deck storage boxes, and supplies many national boatbuilders with high-quality components.
