

DAVIS SNAP TOOL MULTI-KEY TOP PRODUCT FOR 2018

Davis Instruments' innovative Snap Tool Multi-Key has been named a 2018 *Boating Industry* Top Product of the Year. Chosen from among hundreds of nominations, the product was selected based on its impact on the industry, innovation and how it advances its market category.

Snap Tool Multi-Key is a pocket-sized toolbox. Manufactured of hardened 304 stainless steel, it boasts 19 tools commonly used by boat owners. Listening to consumer feedback, Davis recently retooled the product, adding three metric hex wrench sizes to the current four SAE.

"We're especially pleased and honored to be recognized by *Boating Industry* with this award," said Niels Kisling, Davis Instruments spokesman. Top Product of the Year is not Snap Tool Multi-Key's first honor. Fisheries Supply Company named it its Grand Prize Winner at its InNEWvation Awards and the product won an Innovation Award at the 2017 Progressive Insurance Miami International Boat Show.
