## HELLA RECEIVES WORK BOAT WORLD AWARD

Hella marine has been recognized as the marine industry's best lighting supplier by Victoria, Australia-based *Work Boat World* magazine. The company was honored as part of the publication's Best of 2016 Awards, featured in its January 2017 issue.

*Work Boat World* published, "The one name that we're almost guaranteed to see on a spec sheet in the lighting category is Hella marine. If a vessel doesn't have Hella lighting, it probably hasn't been designed to operate at night." Among its judging criteria, the magazine noted, "It continues to be our belief that quality of product, and degree of service and after sales support are all intrinsically tied to market share and sales. After all—in this industry, one does not gain dominance through mediocrity."

Founded in 1925, Hella marine is a globally recognized and trusted manufacturer of high performance navigation, interior and exterior LED lights. Its customer base ranges from commercial vessels to megayachts and smaller recreational boats. Hella marine products are supported by rigorous testing procedures and an industry-leading warranty. Through its global distribution network, the company serves customers in more than 60 countries around the world.
