TEAK RESTORED TO ORIGINAL BEAUTY IN ONE EASY STEP

Exterior teak trim and decking are hallmarks of marine tradition and a yachting aesthetic. Weathering, however, turns the once rich glow of the wood into a lifeless, dull grey. Iosso Teak Cleaner brightens in one easy step, without harsh chemicals that harm the environment or the teak.

Iosso Teak Cleaner restores the natural beauty of all wood, including softwoods like pine and cedar, without damaging or drying out the fibers. It removes dirt, mildew, algae, oil stains and varnish, yet is gentle on the skin. It doesn't contain bleach or chlorine, so it won't harm fabrics, vinyl, canvas, carpeting, metal, plastic, gelcoat or paint.

Easy to use, Iosso Teak Cleaner is mixed with warm water until dissolved and applied to the wood. After letting it stand for at least 10 minutes, the surface is lightly scrubbed and doused with clean water. Because it's biodegradable, the rinse can go overboard. Wood should be allowed to dry at least 24 hours before application of any stains or sealants.

A 16 oz. jar of Iosso Teak Cleaner makes four gallons of solution and is \$15.25; the 80 oz. container makes 20 gallons and costs \$67.80.

Iosso is a manufacturer of premium outdoor cleaning, polishing, lubrication and maintenance products for boats, RVs and other markets. Its formulas are environmentally responsible.
