SEA-FIRE ADDS TWO EUROPEAN DISTRIBUTORS

Sea-Fire, a global leader and pioneer in marine fire suppression technology, has named two new distributors to better serve its extensive European customer base. The company has vigorously grown a strong presence worldwide through its network of authorized agents.

Since 1977, Extincteurs Nantais of Vertou, France has supplied, installed and serviced a wide range of fire response equipment. The company supports the commercial marine and fishing fleet on the northwest coast by offering state-of-the-art Sea-Fire marine fire suppression equipment featuring 3M™ Novec™ 1230 Fire Protection Fluid. Its website is www.extincteursnantais.com.

Based in Lopik, Netherlands, Clouds International BV is a general marine equipment importer and wholesaler. Serving recreational and commercial boating markets, it runs both a retail outlet and service center. The company sells and supports a broad spectrum of the Sea-Fire line, including technologically-advanced pre-engineered systems with Novec 1230. Its website is www.clouds.nl.

"This is an exciting expansion for Sea-Fire Europe," said Richard Duckworth, Sea-Fire's business development manager. "Both companies are highly-regarded, and will represent us and service their customers well."
