## KEEP VEHICLES SHINY WITH SUPERIOR SOAP

A clean, shiny vehicle starts with a high-quality soap. Shurhold's Brite Wash is scientifically formulated to clean fiberglass, clear coat, metal, rubber and painted surfaces.

It removes dirt, grease, salt and other impurities without dulling a vehicle's finish or stripping wax or polish. Brite Wash resists water spots for a streak-free shine. It's also environmentally smart.

Brite Wash is a concentrated formula. Users should mix three ounces of the premium soap with two gallons of clean, fresh water. To make cleaning easier, owners should pre-rinse any loose debris from the areas to be cleaned. For best results, owners should use a high-quality brush or wash mitt. The product should be rinsed off thoroughly, but wipe down is unnecessary unless using hard or chemically-treated water

When washing, owners should always work from the highest point down. This will reduce having to work areas twice.

Shurhold's Brite Wash costs \$11.98 for a 32 oz. bottle.

Shurhold is dedicated to educating car and truck owners on vehicle value preservation. Inventor of the One Handle Does It All system, Shurhold manufactures specialty care items and accessories to clean, polish and detail.
