KEEP BUCKETS IN PLACE WITH SIMPLE TOOL

Washing and cleaning an RV is much easier when users don't have to look out for sliding buckets. Shurhold Industries' new Bucket Base is a sturdy ring designed to minimize bucket sliding, toppling and damage from the bucket scratching against the floor.

Five-gallon pails are used for a variety of reasons, including mopping, cleaning or carrying tools. Stopping problems before they happen, this non-skid, non-marking ring won't damage RV surfaces. It helps prevent scratches in fiberglass and teak, while keeping a bucket in place. A pail won't fall over with brushes or mops in them either. UV resistant and durable, Shurhold's Bucket Base fits most five-gallon pails.

The Bucket Base has price of \$12.95.

Shurhold is dedicated to educating owners on RV value preservation. Inventor of the One Handle Does It All system, Shurhold manufactures specialty care items and accessories to clean, polish and detail.
