GLASS POLISHING PADS KEEP SURFACES CLEAR OF WATER DROPS

Keeping glass free of water spots can be a challenge. Shurhold Industries' Magic Wool Polisher Pad and Hand Pads are designed specifically with delicate glass surfaces in mind.

Both versions are made from a high-grade, bronze metallic wool. It's similar to steel wool except it's ultra-fine and rust-resistant. When used with Shurhold's Buff Magic, these pads easily remove water spots and hard water stains from glass. Designed to work with Shurhold's Dual Action Polisher, the Magic Wool Polisher Pad has standard hook and loop backing.

The hand pads are great for restoring, maintaining and finishing all wood, metal and glass surfaces. They can also be used to remove rust and oxidation or polish chrome, stainless steel, copper and brass surfaces. It can even be used to clean solar panels.

A two-pack of Shurhold's Magic Wool Polishing Pads and a three-pack of Magic Wool Hand Pads are \$19.98 each.

Shurhold is dedicated to educating car and truck owners on vehicle value preservation. Inventor of the One Handle Does It All system, Shurhold manufactures specialty care items and accessories to clean, polish and detail.
