BUFF MAGIC RESTORES DULL METAL SURFACES

To restore the brilliance of oxidized metal surfaces, owners can rely on Shurhold's Buff Magic. An all-in-one polish, it transforms metal and chrome from lackluster to radiant.

Scientifically formulated with jeweler's rouge, Buff Magic is great for removing oxidation, clear coat staining, surface rust, tarnish, Plexi-glas scratches, and P800 and finer DA scratches. It is also an ideal metal cleaner and polisher for steel, aluminum, brass, bronze, copper, gold and other precious metals.

Buff Magic is designed to be user friendly whether buffing by machine or hand. This unique formula changes as it's used. With each pass of a buffer or hand polishing, the proprietary abrasives break down smaller and smaller, creating a compound that can work a finish from very dull to ultra-glossy. Additionally, since users do not have to switch products, they will save time and money.

Shurhold's Buff Magic costs \$28.98 for 22 oz.

Shurhold is dedicated to educating car and truck owners on vehicle value preservation. Inventor of the One Handle Does It All system, Shurhold manufactures specialty care items and accessories to clean, polish and detail.
