## KEEP SNAPS TROUBLE-FREE WITH HANDY LUBE

Rain, dirt and grime can have a corroding effect on the snaps and zippers of awnings, straps and other items. This often results in the mechanisms sticking or ripping the surrounding canvas or plastic. To help prevent this, Shurhold offers Snap Stick, a water-resistant lubricant that comes in a handy tube.

A simple alternative to fighting with snaps or zippers, a quick dab can last for up to three months. This also works great on mechanisms off the RV, like golf bags and tents.

Users just apply Snap Stick to one side of a hinge, snap and zipper. Then, they can close or zip to spread on the other side. Unlike a spray or a gel that can get on surrounding surfaces, Snap Stick only goes where the owner puts it.

Shurhold's Snap Stick has a price of \$6.48.

Shurhold is dedicated to educating owners on RV value preservation. Inventor of the One Handle Does It All system, Shurhold manufactures specialty care items and accessories to clean, polish and detail.
