BUFF AND POLISH IN ONE EASY STEP

Polishing boats can be an arduous, expensive, and time-consuming task. Typically, buffing a boat requires several products for the best results. Shurhold's Buff Magic is an easier, more effective solution compared to other multi-step methods. This re-conditioner, de-oxidizer and restorer is scientifically formulated to work on a wide range of surfaces. Buff Magic speeds up the process of polishing a boat and eliminates the need for multiple products.

Buff Magic's unique formula actually changes as it's being applied; its proprietary agents respond to the buffing action by dividing into increasingly finer particles for a graduated polishing action. This unique process allows Buff Magic to work a finish from flat and dull to ultra-glossy in just one step, saving boaters both time and money. It easily removes oxidation, gelcoat staining, surface rust, tarnish, and even fine scratches from fiberglass, steel, aluminum, brass, bronze, copper, gold and other precious metals.

Buff Magic is easy to use—simply apply, then polish to the desired level of shine. It works great with hand pads for restoring small, intricate pieces like cleats or tow rings and pairs perfectly with Shurhold's mechanical polishers for buffing more expansive areas.

-more-

Buff Magic comes in 22 oz., 64 oz. and 160 oz. tubs. Suggested retail prices are \$28.98, \$59.98 and \$139.98, respectively.
