SIMPLE TIPS EASILY BANISH WATER SPOTS

Permanent water spots that form on a windshield can be an eyesore during the day and a driving hazard at night. Normal window cleaners won't remove them. But Shurhold, the RV cleaning and care specialist, has a DIY solution that'll have glass shining crystal-clear again.

Water spots are mineral deposits that get left behind after water dries. They adhere to glass and permanently etch it if left untreated. Thankfully, glass can be transformed back to its former clarity with a few simple tools from Shurhold.

Perfect for the large panes of glass found on RVs, Shurhold's Dual Action Polisher combined with a Magic Wool Polisher Pad makes the job easy and fast. Dab a small amount of Buff Magic onto the pad and lightly buff on slow speed. Use a microfiber towel to remove any excess residue and polish to a high sheen. A video demonstrating this process is at bit.ly/29cHXF3.

The Dual Action Polisher is the best tool in its category. It has a unique random orbit pattern that protects the surface from burning and swirls. In addition to buffing glass, it's ideal for polishing and waxing. It's the perfect tool for the DIYer who's serious about a clean RV.

Magic Wool Pads are made of ultra-fine, bronze fibers. They resist rusting and are much softer and more durable than regular steel wool, which can scratch delicate surfaces.

Buff Magic is a re-conditioner, de-oxidizer, restorer and metal polish. It's safe to use on a wide range of surfaces, including glass.

Shurhold's Dual Action Polisher is \$149.99 with storage bag and tools; two Magic Wool Polisher Pads are \$19.98; and Buff Magic starts at \$28.98 for a 1.4 lb. jar. All purchases from Shurhold.com are eligible for Club Shine Reward Points.

Shurhold is dedicated to educating owners on RV value preservation. Inventor of the One Handle Does It All system, Shurhold manufactures specialty care items and accessories to clean, polish and detail.
