## WASH TOOL ORGANIZER CHANGES HOW VEHICLES ARE CLEANED

Most car, truck or motorcycle owners store their supplies inside the pail they use for cleaning. The problem is, when it's time to fill it with wash water, all the bottles and tools have to come out, and are constantly under foot. Shurhold Industries' innovative Bucket Caddy organizes it all, and fits inside a common 3.5 or 5-gallon bucket.

The Bucket Caddy has a wide comfortable handle for pulling it out of the pail and moving it around while working. A perforated bottom lets water pass through, and allows tools and supplies to dry. Built in the USA from rugged polyethylene, it's made to last.

Shurhold Industries' Bucket Caddy sells for \$10.98.

The Bucket Caddy is part of Shurhold's One Bucket System. It's a group tools that nestle inside the company's 5 Gallon Rope Handle Bucket and is changing the entire vehicle washing experience. A video is at [bit.ly/2g4A7wz](http://bit.ly/2g4A7wz).

Shurhold is dedicated to educating car and truck owners on vehicle value preservation. Inventor of the One Handle Does It All system, Shurhold manufactures specialty care items and accessories to clean, polish and detail.
