## PREMIUM MULTI-PURPOSE HANDLE TURNS HEADS

Just because something is the handiest, most utilitarian tool on board an RV doesn't mean it can't be attractive. Shurhold's premium Fishing Series Handles resemble a high-end fishing rod. They fit over 40 attachments available for the One Handle Does It All system, and are sure to turn heads wherever they're used.

The first thing people notice about Fishing Series Handles is the sleek black finish, and lacquered gold trim and threadwork at the base. They come with durable foam end and center grips, and are unlike anything else available.

Like Shurhold's standard handles, they're made in the USA from high-strength, heat-treated, corrosion-resistant aluminum. Three convenient and easily stowable versions are offered: model 760FS is a fixed 5', the 833FS telescopes at four lengths from 40" to 6' and 855FS adjusts in five positions from 5' to 9'.

Truly multi-purpose, the Fishing Series Handles can be used with a wide array of Shurhold attachments. Offered are cleaning and maintenance tools, a Curved Adapter for scrubbing an RV's crown and even a camera adapter. A video is at [shurhold.com/marine/shurhold-system](http://shurhold.com/marine/shurhold-system).

Shurhold's Fishing Series Handle 760FS sells for \$59.98, 833FS is \$84.98 and 855FS is \$99.98.

Shurhold is dedicated to educating owners on RV value preservation. Inventor of the One Handle Does It All system, Shurhold manufactures specialty care items and accessories to clean, polish and detail.
