A CLEAN BOAT STARTS WITH BRITE WASH

Many owners mistakenly use strong generic soap on their boats, thinking harsh equals effective. Nothing could be further from the truth. It instead removes any previously applied protective products, makes it difficult to rinse and pollutes the environment with chemical runoff. Brite Wash from Shurhold is different. Safe to use on any onboard surface without stripping wax or polish, it leaves a brilliant, clean finish and is biodegradable, so harmless to aquatic life.

Brite Wash is scientifically formulated to powerfully clean gelcoat, clear coat, paint, metal and rubber. It's even safe to use on delicate surfaces such as isinglass, plastic and vinyl.

Made in the USA, Brite Wash is highly concentrated, so a mere three ounces is all that's needed to make two gallons of solution. It effortlessly cuts through dirt, grime, bird droppings and salt without leaving unsightly spots behind. A 32 oz. bottle of Brite Wash is \$11.98; 1 gal. is \$28.98.

Dedicated to educating boat owners, Shurhold provides key tips for boat value preservation at www.shurhold.com. Inventor of the One Handle Does It All system, Shurhold manufactures specialty care items and accessories to clean, polish and detail.
