## THE HUMBLE BUCKET FINALLY IMPROVED UPON, AND THEN SOME

Since its introduction in the late '60s, the ubiquitous 20 liter plastic pail hasn't changed much—until now. Shurhold Industries introduces the One Bucket System. It turns its World's Best Rope Handle Bucket into an extraordinary, multipurpose cleaning and storage solution.

The 5 Gallon Rope Handle Bucket is made in the USA and features a soft, 2cm braided, nylon rope handle for easy lifting and comfortable carrying. Built to last, it won't rust or damage delicate boat finishes.

Elevated off the bottom of the pail is the removable Bucket Grate. Dirt and debris fall through the grate, so the wash tool is always in clean water. Brushes can be scrubbed against it to remove grime. It also has two built-in 88ml measuring cups for accurate proportioning of cleaning products.

The Bucket Caddy is the perfect place to store bottles, tools and other supplies. It nestles within the bucket for storage, on top of the grate. Its integrated handle makes it easy to pull out and move around while working.

Built of sturdy, high-quality plastic, the Bucket Seat/Lid snaps onto the bucket rim and keeps both the system and supplies secure. Padded, it makes the perfect place to sit and take a break.

Anyone who has brushed a deck knows how difficult it is to avoid toppling over a pail. Shurhold's optional Bucket Base keeps the One Bucket System from tipping. It's made from soft rubber to avoid scratches and slipping.
