## PREMIUM MULTI-PURPOSE HANDLE TURNS HEADS

Just because something is the most utilitarian tool on board doesn't mean it can't be attractive. Shurhold's premium Fishing Series Handles fit over 40 attachments available for the One Handle Does It All system, and are sure to turn heads in any marina.

The first thing people notice about Fishing Series Handles is the sleek black finish, and lacquered gold trim and threadwork at the base—just like a high-end fishing rod. They come with durable foam end and center grips. They're unlike anything else available.

Like Shurhold's standard handles, they're made in the USA from high-strength, heat-treated, corrosion-resistant aluminum. Three convenient and easily stowable versions are offered: model 760FS is a fixed 152cm, the 833FS telescopes at four lengths from 101cm to 182cm and 855FS adjusts in five positions from 152cm to 274cm.

Truly multi-purpose, the Fishing Series Handles can be used with a wide array of Shurhold attachments. Offered are cleaning and maintenance tools, a boat hook, nets, gaff and even a camera adapter. A video is at [shurhold.com/marine/shurhold-system](http://shurhold.com/marine/shurhold-system).

Dedicated to educating boat owners, Shurhold provides key tips for boat value preservation at [www.shurhold.com](http://www.shurhold.com). Inventor of the One Handle
