IMPROVED TRUMPET HORNS NOW EVEN MORE WORRY-FREE

Having a loud, trustworthy sound device is essential to safe boating. Sleek as ever, Schmitt & Ongaro Marine's popular Deluxe Stainless Steel Shorty Single and Dual Trumpet horns have been improved for even greater safety, reliability and performance.

The company's all stainless steel deluxe shorty trumpets are now equipped with an innovative drain feature that increases functionality in rain or choppy weather. The fasteners of the sounding unit are completely sealed in resin to block moisture. The vibration pads are likewise protected with a conductive lubricant. Combined with durable, rubber gaskets, they're worry-free. Both units meet ABYC A-23 standards for boats up to 39'.

The patented 12-volt horns are constructed of gleaming 304 stainless steel throughout, including the brackets and internal housing. Maintenance has been reduced to simple cleaning to enhance the lustrous shine. They're guaranteed not to rust for five years.

They are pre-wired for easy installation. The hole patterns for these horns remain the same as the prior Schmitt & Ongaro shorty models for simple upgrade projects.

Whether for reasons of aesthetics or limited space, the horns' reduced size make them ideal for a wide range of applications. The single shorty trumpet is 13.5" L x 3.5" W x 4" H. It draws 4 amps and is rated 114 db at one meter. A commanding 120 db at one meter, the 7 amp dual version is

16" L x 7.5" W x 4" H. Both horns are known for their sound clarity and enhanced audibility.

The suggested list price for the Deluxe Stainless Steel Shorty Single Trumpet is \$113.30. The Deluxe Shorty Dual Trumpet is \$229.10.

Schmitt & Ongaro Marine Products manufactures innovative and exceptional quality marine steering wheels, horns, wiper systems, control arms and knobs, and accessories. The company offers some of the strongest product warranties in the industry and exceptional customer service.
