DESTROYER WHEEL BUILT SOLID TO PERFORM

Schmitt and Ongaro's all new Polyurethane Destroyer Wheel brings a commanding presence to any boat, at a price point unmatched by its competition. Manufactured with the standard of high quality the company is known for worldwide, this wheel, with its classic styling and robust construction, is made to perform in the harshest conditions.

Solidly built, the Polyurethane Destroyer is weather-defying and easy to care for. Five gleaming spokes radiate from the wheel's central hub—all constructed from durable stainless steel. A molded and foamed black polyurethane covering surrounds a strong steel ring and features a leather-textured finish. Finger grips provide comfort and maximum control. A matching black center cap is standard; chrome-plated ABS is available as an upgrade.

With its contrasting mirror-like finish and inviting black grip, the Destroyer is both tough and practical. It's a high quality, low-cost option for any boat, but is ideal for RIBs, runabouts, skiffs and center consoles. The wheel is available in 35.5cm and 40.5cm diameters, each with a 22° dish.
