## MAZZORBO STEERING WHEEL BOASTS CONTEMPORARY STYLING

Schmitt & Ongaro Marine's new Mazzorbo steering wheel is a high-quality addition to any contemporary boat helm. The uniquely styled 356mm unit is perfect for runabouts, waterski and wakeboard boats, premium pontoon boats and cruisers.

Ideal for fresh or saltwater, the Mazzorbo's spokes are cast of 316L stainless steel. Not only is this stronger than common stamped metal, but with its mirror-like polished finish, provides the solid feel and heft that signifies superior quality.

The all-weather polyurethane grip of the Mazzorbo features the look and feel of real leather. Its ergonomics provides a sure and comfortable grip.

The wheel's multi-faceted center cap has a distinctive chromed trim ring that complements the gleaming spokes. Boatbuilders wanting to personalize the Mazzorbo can easily add a logo element. It comes fully assembled, with ready access to mount the unit to the steering system.

Schmitt & Ongaro Marine offers a 3-year warranty on the Mazzorbo, including the polyurethane grip and powder-coated aluminum hub, and a limited lifetime warranty on the structure and corrosion of the spokes.
