

SPECIAL SAFETY OFFER FOR QUARTZSITE RV SHOW GOERS

In a continuing effort to promote RV safety, SmartPlug Systems is collaborating with Redlands Truck & RV to install its safe and innovative inlets at the 2016 Quartzsite Sports, Vacation & RV Show. The event is January 16–24 in Quartzsite, Arizona.

The revolutionary SmartPlug system replaces outdated and often troublesome twist-type inlets and connectors. Its double-sided locking clips and sleeved inlet provide greater protection against loose attachments and corrosion—the leading causes of power failure and fires.

30A/125V and 50A/125/250V inlets, connectors and cordsets purchased at the show can be installed by Redlands, California-based Redlands Truck & RV on-site. Show-goers will drive away with the latest in safe and easy-to-use electrical connection devices.

SmartPlug System's booth is 618 and Redlands Truck & RV is 621–624. The Quartzsite Sports, Vacation & RV Show website is www.quartzsitervshow.com.
