TRUE HARBOR WELCOMES NEW MIDWEST DISTRIBUTOR

Revolutionizing the way docks are built, True Harbor has brought on Newman's Manufacturing, Inc. as its latest Midwest distributor. Dick Cantley, True Harbor's president, made the announcement. "Newman's is a quality dock manufacturer that will give our TrueDeck products great exposure in the Midwest," said Cantley.

Based in Royalton, Minnesota, Newman's Manufacturing offers a complete line of aluminum marine docks, lift systems and trailers. They will also supply innovative TrueDeck Woodbeam and SunWalk Panels from True Harbor. In business for over 35 years, the company is dedicated to providing only the best quality products.

"True Harbor's TrueDeck Panels are much more user-friendly, require less assembly and deliver better aesthetics than traditional docking panels," said Newman's Manufacturing president Joel Newman. "Plus, they're lighter and more structurally sound."

True Harbor manufactures state-of-the-art TrueDeck Woodbeam and SunWalk Panels. These advanced, engineered dock panels are designed for simple assembly, long life and a beautiful, maintenance-free waterfront environment.
