WEBASTO-EQUIPPED BOATS DEBUT AT LAUDERDALE SHOW

As boatbuilders continue to seek out quality products, Webasto Thermo and Comfort North America expands its OEM relationships. New models from Carver Yachts, Chaparral Boats and Cruisers Yachts will debut at the Fort Lauderdale International Boat Show, November 1-5, with Webasto products on board.

Webasto's Marine Sunroof is featured on the new 42 Cantius from Cruisers Yachts, also found on the 50 Cantius. The stylish Chaparral Boats 307 SSX and 337 SSX premiering at the show will also sport this innovative system. The latest launch from Carver Yachts, the C34 Coupe, includes both Webasto's FCF air conditioning system and a Marine Sunroof.

These new builds join numerous brands on display at the Fort Lauderdale show featuring the company's modern sunroofs. They include models from Chris-Craft Boats, Grady-White Boats, Hampton Yachts, Intrepid Powerboats, Midnight Express, Sabre Yachts, Sea Ray Boats and Viking Yacht Company.

Boatbuilders utilizing Webasto air conditioning systems exhibiting at the show include Aquila Yachts, Floe Craft, Gulfstream, and Robertson and Caine. Ranger Tug will have models on display featuring both Webasto heating and air conditioning solutions.
